

COVID-19

We ask our employees to adhere to 6' social distancing as much as feasibly possible with other employees and customers. Refrain from shaking hands.

Employees are also asked to wash their hands frequently for at least 20 seconds with soap and water.

We have increased sanitation and cleaning of frequently touched surfaces (door knobs, light switches, countertops) throughout the day.

Employees whose jobs may be performed remotely will be asked or allowed to work remotely pending coordination and approval by their Manager.

Call ahead...Ask Homeowner if anyone is sick and request the Homeowner open door to minimize touched surfaces.

Wear N95 Mask, Eye Protection and gloves.

Use washable kneeling pads.

If you don't feel comfortable LEAVE. Appointment can be rescheduled, cancelled or another Technician may take call.

Spray down sinks and toilets with a disinfecting solution wait a few minutes wipe down surface before beginning work.

Spray down all tools used with a disinfecting solution to disinfect and not transmit to next home or business.

Don't come to work sick. Stay at HOME. You will be sent home if you are showing symptoms of illness. Take your temperature before starting work.

If you notice someone in the work environment not practicing safe health practices please report to the Safety Coordinator- Charissa immediately.
